An order issued by the SMA to the Russian general directors of the Soviet AG in Thuringia states that raw materials are to be "hoarded" by the Soviet AGs and that, as far as is possible, all raw materials and semi-finished products required for the fulfillment of the 1948 production plan are to be obtained during the first few months of the year. Since direct assistance from Russian offices will not be available in 1948, these goods must be drawn from the German economy.
